Expo3:- Create a simple cloud software application for flight Reservation system. using cloud service provider to demonstrate software as a service.

Procedure =

S-1 : Goto zoho.com

S-2 : login to the Zoho.com.

S-3 : Select creator option.

S-4 : Enter the Application name.

Flight Reservation system

S-5 : create a new application.

A hand-drawn rectangular box containing five horizontal input fields. Each field has a label to its left: "NAME", "Email", "Age", "phone", and "Address".

S-06 : Select one form or create your own form

A hand-drawn rectangular box representing a table. The first row is the header, with five columns labeled "sno", "Name", "time", "Age", and "address". The rest of the table is empty.

S-07 : The software Has been created.

S-08 : Hence software is Successfully created.
